

Naturally derived source of soluble silicon that is easily absorbed and mobilized by the plant to improve crop strength and resilience.

Key Benefits

- ✓ Strengthens cell walls, making the plant more resilient to pathogens and pests.
- ✓ Increase ability to withstand environmental stresses such as drought, heat, and cold.
- ✓ Reinforces cell walls, improving the structural integrity of leaves, stems, and other plant parts, which can help plants withstand physical stresses like wind and heavy rain.
- ✓ Enhance the uptake and use of other nutrients, leading to overall improved plant health and growth.
- ✓ Improves the efficiency of photosynthesis, leading to better growth and higher yields.

Ease of Use

- Clean and safe to use
- Compatible with other foliar products

Crop Types

Delivery Foliar

Application Rate = 1-8 qt/ac

Planting

Vegetative

Early Growth

Pre Bloom through Fruit Set

Apply as needed according to soil & tissue test recommendations
