AgVent Nautical™

2 - 1 - 0.3

Liquid Concentrate

Cold-processed fish hydrolysate for healthier soils with complete nutrient power from the deep sea

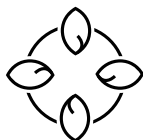

Promote Plant & Soil Health

Integral Nutrients

Never heat-treated to protect nutrients from marine protein, shell, oil, and fish bone.

Multi Nutrition

Bioavailable nutrients to feed microbes, enhance plant health, and improve next harvest.

Feed Beneficial Fungi

Contains 6-10% fish oil and fatty acids.

Celebrating Soil Microbiology

Increasing nutrient availability

Enhancing plant vigor and root development

Improving environmental profile

Boosting nutrient cycling and crop productivity

Amplifying crop residue breakdown

Healthy soils built by Nautical provide:

Amplified soil humus, including long & short chain carbon molecules

Improved soil aggregation

Balanced soil pH

Balanced micro and macro nutrients

Increased nutrient availability

Improved water holding capacity

Improved water infiltration

Decreased salinity

AgVent Nautical is a cold-processed fish hydrolysate with a unique process to solubilize added crab shell to deliver bioavailable amino sugars to accelerate beneficial bacteria in a ready-to-use liquid concentrate.
